About Indian Economic Association

IEA is a registered body of Indian Economics Professionals, established way back in 1917, with the objective of providing a forum for debate and discussion of theoretical and policy oriented issues of Economic Science. Thanks to the initiative taken by Charles Joseph Hamilton, then Minto Professor of Economics at Calcutta University, and a score of economists, mostly teachers, who met in Calcutta in December 1917 to deliberate on economics. IEA is the oldest Association in Social Sciences and perhaps second oldest in the country in any discipline, after the Indian Science Congress Association (founded in 1914). IEA organizes annual conferences, seminars, and lectures by eminent persons of the profession. It stands for promoting the interest of the discipline in terms of extension, expansion and professional competence in teaching, training, research, and consultancy. It promotes the interests of its members, but more than that the interest of the public, which is served when members sincerely devote their time and energy to raise their competence and deploy that competence when the occasion arises. IEA has so far organized 104 annual conferences in different parts of the country. Now IEA going to organize 105 Annual Conference at F. M. University, Balasore, Odisha on December 27-29, 2022.

Prof. Ganeshi Lal
Governor
Odisha

Massege

I am glad to know that Indian Economic Association is organising it's 105th Conference including an International Seminar on December 27-29, 2022 with the collaboration of Fakir Mohan University, Balasore. A souvenir is also being brought out to mark the occasion

Indian Economic Association (IEA), which has a history of over 100 years, has been served by many eminent economists and it has been benefitted immensely from their vision and guidance. Over the years, IEA has evolved into a vibrant and interactive forum Its history has been defined in large part by remarkable contributions in the field of teaching and research and by providing inputs towards policy making among others. The annual conference has been very productive and I am sure the present conference would be equally productive and professionally enriching

I wish the conference and publication all success.

Massege

It gives me immense pleasure to know that *Indian Economic Association* is completing 105 years of its formation. To mark the occasion, you are organising 105th Annual conference at FM University Balasore, Odisha, on a very relevant theme Post Pandemic Economic Recovery of India Policies and Challenges.

I also understand that you are bringing out a Souvenir to commemorate the 105th Annual Conference of IEA. I am sure that there will be very fruitful and meaningful deliberations in the Conference which will be help ful in ensuring the Indian Economy achieving its aim of \$ 5Trillion.

I hereby send my best wishes for the grand success of the 105th Annual Conference to you and IEA Fraternity.

Massege

I am extremely happy to learn about the 105th Annual Conference of Indian Economic Association being organised at Balasore, Odisha, deliberating upon a highly contemporary and important theme, 'Post-pandemic Economic Recovery of India: Policies and Challenges'.

Massive lock downs to contain COVID 19 led to disruption of global supply chains and economic slump worldwide. Russia-Ukraine war, US-China discord over Taiwan and financial stress in the US, the UK and other parts of developed world contributed to high inflation in most parts of the developed world, rise in petroleum, foodstuff and other commodity prices worldwide and a slump in growth of world economy and trade. Interestingly, India has steered through the global economic challenges as the shining star in the comity of nations, not only containing the pandemic effectively but also emerged as the fastest growing major economy in the world.

In today's multipolar world with rapidly rising risks and uncertainty, I am confident that the conference would provide an opportunity to eminent economists, academicians, policy makers and researchers alike to share their latest research work and would make far reaching contribution in policy formulation and its implementation.

I wish the Conference a bright success.
