## About Indian Economic Association

IEA is a registered body of Indian Economics Professionals, established way back in 1917, with the objective of providing a forum for debate and discussion of theoretical and policy oriented issues of Economic Science. Thanks to the initiative taken by Charles Joseph Hamilton, then Minto Professor of Economics at Calcutta University, and a score of economists, mostly teachers, who met in Calcutta in December 1917 to deliberate on economics.

IEA is the oldest Association in Social Sciences and perhaps second oldest in the country in any discipline, after the Indian Science Congress Association (founded in 1914). IEA organizes annual conferences, seminars, and lectures by eminent persons of the profession. It stands for promoting the interest of the discipline in terms of extension, expansion and professional competence in teaching, training, research, and consultancy. It promotes the interests of its members, but more than that the interest of the public, which is served when members sincerely devote their time and energy to raise their competence and deploy that competence when the occasion arises. IEA has so far organized 105 annual conferences in different parts of the country. Now IEA going to organize 106th Annual Conference at Giri Institute of Development Studies, Lucknow on December 27-29, 2023.

Vivekananda believed that the future of any nation depends upon its human resource and the main aim of education should be to develop this human resource. He says each soul is potentially divine. The goal is to manifest this Divinity within by controlling nature, external and internal.

It is immensely pleasurable moment for us that Giri Institute of Development Studies, Aliganj of Lucknow (U.P.) is organizing the 106th Annual International Conference of the LE.A. during 27-29 December 2023, with the main focus on the themes of Natural Resources, Women Empowerment & New Education Policy-2020 and ultimately achieving the mission of A Trillion SEconomy in Uttar Pradesh.

It is a matter of great pleasure and satisfaction that our @Indian Economic Association in its 106 th. year of successful all round development in academic activities as a result it a made a mark ,despite all odds both natural and political and has acquired a special space of importance in the hearts of academic and professional of the world.

Delighted to note that V.V.Giri Institute on its Golden Jubilee year (1973-2023) has been chosen to hold the 106 th. Annual Conference of IEA at its campus. Not less important is the broad academic framework drawn by the V.V.Giri Institute and IEA ,together for this three days Conference (Dec.27-29,2023) to be held at the historic city of Lucknow.'Development Perspective of India - Issues and Challenges'needs a special attention of Academicians of the world.For academic interactions,the IEA has devised four broad themes touching ,almost all issues of contemporary importance.As our usual practice one chapter ie, fifth.contemporary issues of the State,where the Conference is being held has also been chosen.UP has Carved an important Place in the nation and is poised to become Trillion Dollar Economy and needs to get its feedback from the academic of Economic Professionals across the boundary of the Nation.That is why,it has been included as fifth Chapter in this session.

Our dedicated IEA team and equally efficient team of Giri Institute are doing hard work around the clock to see academic and logistic arrangement so that this IEA session may prove a Benchmark of success of highest order.

Being it Association President and decades long active association with IEA,it is my pride privilege to send my good Wishes for the Grand Success of the Conference. With all my Best Wishes.

Greetings from Needonomics School of Thought!

I am glad to learn that Indian Economic Association is organizing 106<sup>th</sup> conference at Giri Institute of Development Studies Lucknow from 27<sup>th</sup> December to 29<sup>th</sup> Dec 2023 and publishing a souvenir on the occasion.

I believe that Needonomics (economics of needs) based on Gita is necessary and sufficient for needo-solutions to the contemporary problems in the world. We must learn and adopt needonomics confining to needs and no to greed for all practical aspects of Vikasit Bharat @2047.

We have to think out -of-the-box solutions on different aspects of the economy including needo-consumption, needo-saving, needo-production, needo-investment, needo-distribution, needo-altruism, needo-trade for needo-wealth, needo-health and needo-happiness, the entire domain of the needonomics school of thought. We must become street SMART (simple, moral, action-oriented, responsive & transparent) with needonomics as a common sense approach. To be excellent consumers, producers, distributors, and traders, we must be in the goodness mode better than the normal mode of the smartphone which is kept many times in vibration mode also.

I trust that the deliberations in 106<sup>th</sup> Conference will prove an asset for the economy with positive implications for Vikasit Bharat towards 2047. I wish IEA leadership all success and convey my best wishes to all of you.

Spiritually Yours,

Prof. M. M. Goel
